ABOUT OUR CAUSE

Founded in 2012, the Performance Based Building Coalition is the nation’s only non-profit industry coalition exclusively dedicated to developing the market for social infrastructure public-private partnership (PPP) projects in the United States. Consisting of over 70 public and private sector members, the PBBC’s mission is to pass federal tax legislation that will create a new category of exempt facility bonds for government owned buildings, while simultaneously educating the public sector on all aspects of executing a PPP project.

All proceeds from this event will be used to further the coalition’s mission of removing the obstacles currently impeding the use of private investment in the construction, renovation and replacement of our nation’s aging and dilapidated public buildings, thereby improving the quality of life for building occupants and providing fiscal responsibility to taxpayers.

ABOUT THE VENUE

Situated on over 222 acres of handcrafted land and located just twelve minutes from Manhattan, the new Trump Golf Links at Ferry Point is the perfect setting for any golf outing. Designed by Jack Nicklaus with the intention of hosting major championships, Trump Ferry Point is the only tournament-quality golf course in New York City.

Though the layout has a distinctly Scottish feel, with rolling mounds of fescue bordering 7,407 yards of pristine tees, fairways and greens, the dramatic views of the Manhattan skyline, East River and Whitestone and Throgs Neck Bridges are uniquely New York City. With five-star facilities, world-class hospitality and breathtaking views at every turn, an unforgettable day is inevitable.
